-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 28 February 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments filed 02/28/07 have been fully considered but they are not persuasive.

The Examiner clearly understands the Applicant's remarks. However, after a careful examination of the Applicant's remarks and the independent claim, the Examiner is keeping the previous rejections.

Claim 1 is only claiming a flexible duct and a device that adjust the spacing between two distant sections. Poirier discloses a flexible duct (14) and two adjustable means. The first adjustable means is element 42 that is longer than the second adjustable means 60. These two elements are two different components as mentioned by the Applicant's representative and as mentioned in the prior art. However, system 10 and system 11 in Figs. 1 and 2 are made of the same structure elements, such as, elements 24, 28, 14, 22, 20, and 18, therefore, the adjustable means are capable of adjusting the length of element 14 as shown in Figs. 1 and 2, so it can be connected in two different areas (see col. 3, lines 4-57).

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5, 8 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Poirier  
US Patent 4,086,665.

Art Unit: 3738

Poirier discloses a vascular prosthesis comprising a flexible duct (between element 46 & 76) that is elastically deformable lengthwise, the prosthesis including adjustable means for fixing the spacing between two distant sections of the length of the flexible duct. The adjustable means for fixing the spacing comprise a spacer (12), a first section (18) and a second section (38, 36 & 76).

Regarding claim 3, see element 34.

Regarding claims 5, 8 and 9, see Figs. 1 and 2.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Poirier US Patent 4,086,665.

Poirier discloses the invention substantially as claimed. However, Poirier does not disclose a first section of the flexible duct sewn to the first end of the spacer.

At the time the invention was made, it would have been an obvious matter of design choice to a person of ordinary skill in the art to modify the connection method of joining the first section to the first end of the spacer by sewing because Applicant has not disclosed that by sewing the two sections together provides an advantage, is used for a particular purpose, or solves a stated problem. One of ordinary skill in the art, furthermore, would have expected

Art Unit: 3738

Applicant's invention to perform equally well with clamping connection of the Poirier reference because it would perform equally as well.

Therefore, it would have been an obvious matter of design choice to modify the Poirier reference to obtain the invention as specified in claims 1 and 2.

***Allowable Subject Matter***

Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
